

The New Hampshire Department of Safety,
New Hampshire Homeland Security Emergency Management
presents...

Incident Dispatcher (All Risk/All Hazard)

COURSE DESCRIPTION:

Dispatchers have a great role to play during an incident, both inside and outside of the Dispatch Center. These Incident Dispatchers can assist the Incident Commander by taking on the burden of establishing reliable incident field communications, and helping to establish a workable Incident Command structure. This two-day class is tailored primarily for local governmental agencies who wish to respond Incident Dispatchers within their own jurisdiction, or to supply Mutual Aid Incident Dispatchers to neighboring agencies. This class is great for dispatchers who may be working a Tactical incident primarily from the Dispatch Center, or who may deploy as an Incident Dispatcher to a Fire, Law, or EMS event.
